Professional Summary

Computer Science student specializing in Software Engineering, passionate about designing software that makes an impact. My journey in technology is driven by curiosity, discipline, and a desire to continuously improve. Outside of academics, I enjoy exploring new technologies, building projects, and challenging myself through pursuits like rugby, cybersecurity, and problem-solving. I believe software is more than just writing code it's about creating solutions that are reliable, scalable, and meaningful.

EDUCATION

Belgium Campus iTversity - BSc Computer Science | 2024 – 2028

Bachelor of Computing in Software Engineering | NQF Level 8

- Current Year: 3rd year (2026 academic year)
- Technical Skills: Full-stack web development (HTML, CSS, JavaScript, Node.js, Express.js, EJS, REST APIs, MongoDB, Mongoose), database design and development (T-SQL, SQL Server, normalization, ERDs), object-oriented programming (C# with Windows Forms and .NET, Java with Swing and Servlets), software testing (black-box and white-box techniques, xUnit automation), and concurrency/threading, with proficiency in tools including VS Code, Visual Studio, IntelliJ IDEA, and Git.

Hoerskool Akasia | 2019 - 2023

National Senior Certificate (NCS) | Bachelors Pass | 64% aggregate

- 2x Best Senior Thrower (2022, 2023)
- Captained Rugby 1st team (2023)
- Half Honorary Colors: Rugby (2023)

TECHNICAL SKILLS

Languages: SQL, T-SQL, C#, Java, JavaScript, HTML, CSS

Frameworks & Tools: .NET, Windows Forms, Java (Swing, Servlets), Node.js, Express.js, EJS, Mongoose, SQL Server, SSMS, IntelliJ, NetBeans, VS Code, Visual Studio, Git, xUnit

Concepts: OOP (4 Pillars), Database Design & Normalization, REST APIs, Asynchronous Programming, Concurrency/Threading, Event-Driven Programming, Software Testing (Black-box/White-box, Unit, Integration, System), ACID, Design Patterns

Software: Desktop Apps (C#/Java), Dynamic Web Apps, REST APIs, Relational Databases

PROJECTS

- **Smart Event Management & Ticketing Platform** - Repository for our Web Programming 381 module project. An event booking platform where users can sign up for events while admins are able to manage and CRUD events.
- **PRG282_SuperHeroSystem** - An event booking platform where users are able to sign up for events while admins can manage and CRUD events.

EXPERIENCE

Athletics Coach – Hoerskool Akasia

2024-Present

- Coached athletics specifically discus, shotput and javelin.

CERTIFICATIONS & ACHIEVEMENTS

- [Certification / credential] — [Provider], [Year]
- [Hack The Box / TryHackMe / CTF achievement] — [Year]
- [Academic / competition / leadership achievement] — [Year]
